

£84.00

Echo® MiniTech™ is a portable personal listener which can be used with either a headset or neck loop and gives excellent amplification in meetings, out and about or

- amplifies conversations
- superb sound quality
- active tone control

Our range of **assistive listening devices** are extremely popular - and give a boost to hearing aid wearers in the situations where sound quality can suffer. Realising that you are not catching all the conversation even when your hearing aids are in can be very frustrating. But you wouldn't be alone - so many people who live with hearing loss rely on more than just hearing aids to provide intelligible audio.

£126.00

Echo MiniTech Pro® Digital Personal Listener has exceptional sound quality that **helps you hear conversation**, TV and radio etc. more clearly, with or without a hearing aid. A bright colour LED indicates the increase and decrease in volume control. The tone control function allows you to adjust the bass and treble of the sound.

- amplifies conversations
- use with or without a hearing aid
- switch easily between TV and conversation
- active tone control
- digitally controlled
- powered by AA drycell batteries

The Roger Pen System

£530 Roger Pen

£135 My Link

£305 Clip on Mic

A discreet simple wireless microphone pen that works with the Roger system to bring you outstanding amplified conversation and personal listener functionality with unique speech enhancement technology. The sound signal received from the Roger Pen is then sent to the Roger MyLink neckloop receiver. The Roger Pen is also perfect for use with miniature Roger receivers (call us for further details) which attach directly to hearing aids or cochlear implants making it a superb hearing aid microphone. You can purchase additional Roger Pens and there is also a clip-on mic version which can be used to expand the system - ideal if there are several people speaking at the same time.

This Bluetooth pen microphone comes with a lanyard so the speaker can wear it round the neck. It also connects directly to your TV, MP3, HiFi and mobile for hands free operation.

Features:

- Automatically switches between omni-directional and directional microphone
- Bluetooth (up to 10m)
- Range up to 20m
- Up to 10 Roger microphones can be added to your Roger Pen
- Supplied with charging station and which can also be connected to through audio equipment too (e.g. TV)
- 2 year warranty

Every purchase you make goes towards funding vital services for the D/deaf community

NOTE: Persons with pacemakers or other medical devices should always consult their GP/ physician or cardiologist before using the device. NeckLoops should not be worn by persons with pacemakers or ICDs (implantable cardioverter defibrillator). Please contact your GP or cardiologist for further information.
